Students enrolled in a single major may not satisfy the breadth requirement with courses in the subject area of that major (e.g. chemistry majors may not use CHEM courses). Students who are enrolled in more than one major or degree are allowed to meet the University breadth requirement by taking approved breadth courses from within the subject areas of their majors. The requirements are subject to limitations above, however credit hours may be counted only once towards the credit hour minimum required for the degree. See the undergraduate catalog at [catalog.udel.edu](http://catalog.udel.edu) for the list of course options.*

**Note:** Many students take courses through the winter and summer sessions to reduce their regular semester course load. These special sessions normally offer only introductory level courses. If you want to take a course somewhere other than UD, be sure to get the course pre-approved by the department offering the equivalent course and your College's Assistant Dean.
