Management Information Systems (MIS) Minor

For students that matriculated in 2019 Fall – Present

Applications for the Minor in Management Information Systems are submitted through UDSIS and are reviewed twice a year

The MIS minor enables students to solve business problems by applying their knowledge of technology in the workplace. In addition to courses that utilize database and structured problem-solving, MIS minor students also participate in the MIS capstone course. This project-based course provides the student with an opportunity to work in teams to develop a solution to a client’s actual business problem.

A minimum cumulative GPA of 2.8 and completion of 28 credit hours will be required for consideration. The minor requires the following courses, with a grade of C or better in 27 of the 30 credits and an overall average of C or better for all courses in the minor. For additional information, please see my.lerner.udel.edu for a list of advisors by minor.

Number of Credits: 30
